EDUCATION

B.Sc. in Computer Engineering

Istanbul Arel University 2023 – 2027 (Expected) Istanbul, Turkey

- **Focus:** Actively seeking every opportunity to enhance my skills in every possible way.

EXPERIENCE

Summer Internship

Horoz Lojistik August - September 2026 Istanbul, Turkey

Keywords:

- Developed a route-optimisation solution that analyses real-time and predictive traffic levels to improve delivery efficiency for cargo and logistics companies.
- Designed and coded a custom reverse proxy / load balancer to put data communication, network protocols and cross-server load distribution in distributed systems into practice.

Summer Internship

Anadolu Sigorta July – August 2026 Istanbul, Turkey

Keywords:

- Developed a web-based project for Anadolu Sigorta using HTML.
- Learned the intricacies of agile working.

Summer Internship

Enocta July – August 2025 Istanbul, Turkey

Keywords:

- Actively contributed to sales and business development activities.
- Worked on creating, cleaning, and organizing data in a CRM system to improve data quality and accessibility.

PROJECTS

borsadostu.com

A stock market analysis web application designed for use by students and low-profile investors.

Nagle and Clark Algorithm Demonstration

Simulation project demonstrating the impact of Nagle and Clark algorithms on network efficiency.

mobile-document-enhancement

Python pipeline for document enhancement using spatial filtering, adaptive thresholding, and MSE/PSNR evaluation.

WBOCRM

A web-based CRM system developed for small businesses, once fully deployed, using JavaScript, Gherkin, Cucumber, PostgreSQL.

TOROS

A system that manages a delivery fleet within the borders of Istanbul province, distributes deliveries across zones and days, and optimizes vehicle routes.

ACTIVITIES

- **Arel Teknofest Kulübü:** Active Member, participating in workshops and meetings focused on national technology competitions.
- **Arel Gömülü Sistemler Kulübü:** Member, following seminars and hands-on activities related to IoT and hardware-software integration.
- **Arel Yazılım Kulübü:** Member, engaging in technical meetups and software development events within the university.

PROGRAMMING LANGUAGES

Java

Object-Oriented Programming, Swing, Database Integration

Python

OpenCV, NumPy, Image Processing, IoT Applications

C++

Network Simulation, Nagle & Clark Algorithms, Data Structures
